

ANIL KUMAR NARUKURTHI

Rajahmundry, India | +91 9505992032 | anilkumarnarukurthi98@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

- Full Stack .NET Developer with 3+ years of experience designing, developing, and deploying **scalable web applications** across multiple domains.
- Proficient in **React.js**, **.NET Core**, **ASP.NET MVC**, **C#**, **SQL Server** for building robust full-stack solutions.
- Developing **RESTful APIs**, **secure role-based authentication**, and high-performance applications with a focus on **scalability and user experience**.
- Strong expertise in **database design, optimization, and performance tuning** to ensure reliability and efficiency of applications.
- Skilled in **Agile/Scrum methodologies**, **Git/GitHub**, and **CI/CD practices**, delivering responsive, reliable, and user-friendly software solutions.

KEY SKILLS

- Front-End:** React.js, ASP.NET, ASP.NET Core, HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX, WPF.
- Back-End:** C#, ASP.NET MVC, .NET Core, Entity Framework, ADO.NET, RESTful APIs, LINQ, Microservices Architecture.
- Database:** SQL Server, SSMS, Stored Procedures, SQL query optimization and performance tuning.
- Tools & Version Control:** Git, GitHub, Visual Studio, Visual Studio Code, Postman, CI/CD.
- Testing & Optimization:** Unit testing, debugging, scalable and maintainable application development.

EXPERIENCE

APTONLINE LIMITED (Joint Venture of TCS and the Government of Andhra Pradesh and Telangana)

Vijayawada, India

Associate Software Engineer – Full Stack .NET Developer

Aug 2022 – Present

- Responsible for end-to-end development and deployment of government web applications on IIS servers.
- Handled tasks including designing, developing, and optimizing scalable applications using C#, ASP.NET Core, React.js, and SQL Server.
- Designed and implemented RESTful APIs, secure role-based authentication, and ensured efficient data management.
- Built real-time dashboards, optimized API/database performance, and ensured reliability and high performance of applications.
- Collaborated effectively in Agile teams, managing tasks via Git/GitHub, performing unit testing, debugging, and delivering high-quality solutions on time.

PROJECTS

APCCE (Andhra Pradesh Commissionerate of Collegiate Education)

Mar 2025 – Present

- Developed an Educational Management System to support faculty and officials in the collegiate education department.
- Improved system performance by **30%** through optimized SQL queries and efficient backend processing.
- Reduced report generation time by **40%**, enabling faster decision-making for stakeholders.
- Achieved **99% application uptime** by implementing robust error handling and performance tuning.
- Technologies / Tools / IDEs:** C#, .NET Core, ASP.NET MVC, SQL Server, Entity Framework, HTML, CSS, JavaScript, Visual Studio 2025

APPCB (Andhra Pradesh Pollution Control Board)

Aug 2022 – April 2025

- Developed waste management modules for Healthcare, Plastic, Battery, Air, and Soil waste to monitor statewide pollution data.
- Increased data processing efficiency by **35%** by optimizing APIs and database queries.
- Developed dashboards improving monitoring efficiency by **40%** for real-time pollution tracking.
- Reduced manual effort by **50%** through automation of reporting and Excel export features.
- Technologies / Tools / IDEs:** C#, .NET Core, ASP.NET MVC, Entity Framework, SQL Server, JavaScript, jQuery, HTML, CSS, Visual Studio 2022

APCRDA (Andhra Pradesh Capital Region Development Authority)

Mar 2023 – Feb 2024

- Developed and maintained RESTful APIs for the Mana Amaravathi mobile application for secure and efficient data communication.
- Improved API response time by **30%** through performance optimization techniques.
- Implemented secure JWT authentication reducing unauthorized access risks by **40%**.
- Enabled real-time communication, improving notification delivery efficiency by **50%**.
- Technologies / Tools / IDEs:** C#, .NET Core, Web API, Entity Framework, SQL Server, Postman, Visual Studio 2022

EDUCATION

SIR CR REDDY COLLEGE OF ENGINEERING

Bachelor of Technology (B.Tech)

Eluru, India

2019 – 2022
