

ANIL KUMAR NARUKURTHI

📍 Rajahmundry, India | 📞 +91 9505992032 | ✉ anilkumarnarukurthi98@gmail.com | 🔗 LinkedIn | 🌐 Portfolio

SUMMARY

Results-driven **Full Stack .NET Developer** with **4 years of experience** delivering enterprise-grade web applications and secure **RESTful microservices** for large-scale government and public sector clients. Expert in aligning **React.js** UI architectures with robust **.NET Core** and **SQL Server** backends. Specializes in optimizing high-concurrency database queries, securing API endpoints via **JWT-based authentication**, and enforcing **SOLID design principles** across Agile delivery environments. Seeking to bring production-proven engineering discipline to enterprise digital transformation programs.

KEY SKILLS

- **Front-End Technologies:** React.js, React Hooks, Context API, ASP.NET Core MVC, JavaScript (ES6+), jQuery, AJAX, Bootstrap 5.
- **Back-End Frameworks:** C#, .NET Core 8.0/7.0, ASP.NET Web API, Entity Framework Core, ADO.NET, LINQ, Microservices Architecture.
- **Data Layer Architecture:** SQL Server, Stored Procedures, Index Tuning, Query Execution Plan Analysis, Relational DB Design.
- **DevOps & Cloud Platforms:** Git, GitHub, Postman, IIS Administration, CI/CD, Microsoft Azure (Cloud Fundamentals), System Debugging.
- **Testing & Quality:** Unit Testing, API Testing (Postman), xUnit, Debugging & Performance Profiling, Code Reviews.
- **Patterns & Methodologies:** Agile/Scrum Sprints, SOLID Design Principles, Dependency Injection, JWT Token Security, OAuth2.

EXPERIENCE

APTONLINE LIMITED (JV of TCS & Govt. of Andhra Pradesh and Telangana)

Vijayawada, India

Full Stack .NET Developer (Associate Software Engineer)

Aug 2022 – Present

- Managed delivery across **5+ government platforms** on **IIS environments**, sustaining a 99%+ production uptime baseline.
- Enforced **C# RESTful API** standards, schema normalization, and transaction integrity protocols across the engineering team.
- Led **code reviews** and **Git/GitHub** workflows inside **Scrum sprints** to anchor delivery cadence for an **8-member team**.

Key Enterprise Projects Delivered at APTONLINE:

APCCE (Educational Management System Platform)

Mar 2025 – Present

- Spearheaded a multi-tier management portal using state-driven **React.js** component architecture and **.NET Core** to automate workflow logic for state department officials managing **collegiate education operations across Andhra Pradesh**.
- Overhauled slow data extraction layers by establishing indexed **SQL Stored Procedures**, reducing application report generation time **from ~10s to ~6s (35% improvement)**.
- **Technologies:** C#, .NET Core 8.0, ASP.NET MVC, React.js, SQL Server, Entity Framework Core, LINQ, Git

APPCB (Statewide Industrial Waste Management Analytics Framework)

Aug 2022 – April 2025

- Architected data ingestion pipelines paired with high-throughput **RESTful Web APIs** to capture and visualize real-time statewide industrial telemetry datasets across **Healthcare, Plastic, Battery, Air, and Soil waste** monitoring domains.
- Deployed asynchronous **jQuery Data Tables** alongside non-blocking **AJAX background processing**, reducing large file generation and export time **from ~10s to ~6s (40% improvement)** for datasets exceeding **50,000+ records**.
- **Technologies:** C#, .NET Core, Web API, SQL Server, ADO.NET, JavaScript, jQuery, AJAX, Bootstrap 5

APCRDA (Mana Amaravathi Government Core Mobile Backend)

Mar 2023 – Feb 2024

- Secured **30+ REST API endpoints** for citizen mobile services by engineering custom token-based **JWT authentication filters** with role-based permission routing, eliminating unauthorized access incidents post-deployment.
- **Technologies:** C#, .NET Core, Web API, Entity Framework Core, SQL Server, JWT, Postman, Git

EDUCATION

SIR CR REDDY COLLEGE OF ENGINEERING

Eluru, India

Bachelor of Technology (B.Tech)

2019 – 2022

CERTIFICATIONS

- **React JS Certificate of Completion** [Issued by IBM via Coursera] — Advanced frontend hooks, application state machines, and view architecture.
- **Introduction to Microsoft Azure Cloud Services** [Issued by Microsoft via Coursera] — Enterprise cloud architecture infrastructure and resource virtualization frameworks.
- **Prompt Engineering for ChatGPT AI** [Issued by Vanderbilt University via Coursera] — Applying AI-assisted workflows to accelerate code verification, technical documentation, and engineering productivity.
